PROFESSIONAL SUMMARY

Laravel & Next.js Full Stack Developer with practical experience building Laravel/PHP backends, REST APIs, MySQL databases and responsive Next.js/React interfaces. Developed role-based business platforms, booking workflows, ERP/POS systems and AI-enabled web applications. Completed a Backend Developer internship at Appstick Tech Firm and an 80-hour Laravel training program under the EDGE Project. BSc CSE, CGPA 3.60/4.00; all examinations completed and thesis pending.

EDUCATION

Bachelor of Science in Computer Science and Engineering (BSc CSE) — Thesis Pending
Northern University of Business and Technology Khulna (NUBTK), Khulna, Bangladesh
CGPA: 3.60 / 4.00 | All examinations completed; final result after thesis.

Higher Secondary Certificate (Science) — 2020
Satkhira Government College
GPA: 5.00 / 5.00

Secondary School Certificate (Science) — 2018
Alipur Union Secondary School
GPA: 5.00 / 5.00

WORKING EXPERIENCE

Backend Developer Intern | Feb 2026 – Mar 2026
Appstick Tech Firm, Khulna, Bangladesh
GitHub | View Certificate

– Contributed to Laravel/PHP implementation, reusable application logic and database-related tasks for a transport, courier and supply-shipment management project.
– Supported debugging, database integrity checks, consignment workflow logic and collaborative development using Git and GitHub.

TECHNICAL SKILLS

Backend & APIs: PHP 8.2+, Laravel 11/12, MVC, RESTful APIs, Laravel Sanctum, OAuth 2.0, RBAC, middleware, validation, Eloquent ORM
Frontend: Next.js 16, React, TypeScript, JavaScript, Vue.js, Vite, Tailwind CSS, Bootstrap, HTML5, CSS3
Databases: MySQL, PostgreSQL, SQLite, relational schema design, normalization (1NF–3NF), SQL, transactions, indexing, data integrity
AI Integration: OpenAI API, Google Gemini API, AI integration, prompt engineering
Tools & Practices: Git, GitHub, Postman, Composer, PHPUnit, SMTP/email, PDF generation, Agile/Scrum, debugging, testing, documentation

SELECTED PROJECTS

NS ERP — Enterprise Resource Planning System | Next.js 16 | React 19 | Laravel 12 | Sanctum | Live | GitHub
– Role-based ERP covering inventory, purchasing, sales, accounting and employee self-service.

SecureX — CCTV & Security Service Booking System | Laravel 12 | PHP | MySQL | Google OAuth 2.0 | Live | GitHub | DOI
– Built a Laravel MVC platform for service discovery, bookings, admin review, status management, time-slot conflict detection, email notifications and PDF invoices.
– Implemented email/password and Google OAuth 2.0 authentication, role-based administration, CRUD workflows and duplicate-booking prevention.

SELECTED PROJECTS (CONTINUED)

AI Smart Campus System | Laravel 12 | Sanctum | React/Vite | MySQL | Gemini/OpenAI | Live | GitHub
– Led the academic project team as Team Leader and Database Lead; designed the MySQL-backed data layer and supported React/Vite integration with a Laravel REST API.
– Implemented Sanctum-secured API workflows and Gemini/OpenAI integrations for student-support and campus features.

Logistica — Transport & Shipment Management | Laravel | PHP | MySQL | GitHub
– Contributed to Laravel/PHP backend implementation, reusable validation logic and MySQL data-layer tasks for transport, courier and supply-shipment workflows.
– Supported debugging, database integrity checks and consignment workflow logic.

Nur Foodes — Restaurant POS & Store ERP | Laravel REST API | JavaScript | Vite | MySQL | PWA | Live | GitHub
– Designed a touch-optimized POS for dine-in, takeaway and delivery with cashier and kitchen workflows.
– Supports Arabic/English interfaces, payment methods, inventory controls, shift reporting and VAT-aware sales.

Library Management Project | Laravel | PHP | MySQL | MVC | 3NF | GitHub
– Developed a database-driven library system using normalized relational design, Eloquent relationships, validation, role-based catalog and checkout workflows, and reusable CRUD operations.

CV Payment Reminder Automation | Workflow Automation | GitHub
– Automation project focused on payment-reminder workflows.

Aurelia Maison Paris — Luxury E-Commerce & Admin Suite | React 19 | TypeScript | Vite | Tailwind CSS | Supabase | Live | GitHub
– Luxury storefront and admin suite with product catalog, inventory, order fulfillment, CRM, analytics and multi-currency support.

Primeor Solutions — Internship Program Portal | React | TypeScript | Vite | Laravel 11 REST API | Live | GitHub
– Full-stack internship portal with application and contact workflows connected to a Laravel 11 REST API.

Resumate AI — Conversational Resume Builder | Next.js 16 | React | TypeScript | OpenAI API | Supabase | Live | GitHub
– AI-assisted multilingual CV builder with resume import, ATS optimization, editable templates, live A4 preview and PDF export.

Assessment Exam Platform | Laravel REST API | Laravel Sanctum | PostgreSQL | Next.js | Tailwind CSS | Render | Vercel | Live | GitHub | Backend API
– Role-based assessment platform with student registration, balanced ten-question tests, saved/resumable attempts and score/level results.
– Administrators manage the question bank and review submitted results.

TRAINING & CERTIFICATION

PHP (Laravel) Training – 80 Hours | Nov 2024 – May 2025 | Issued 29 May 2025 | Verify Certificate
Department of Computer Science and Engineering, Khulna University | EDGE Project, Bangladesh Computer Council, ICT Division
Credential ID: EDGE-DSTS-103-9880-00009
21 Days of Code – Web Development Bootcamp | Programming Hero | 2024 | View Certificate
