

MD. NAZMUS SHAKIB

BACKEND DEVELOPER | FULL STACK DEVELOPER | LARAVEL DEVELOPER

Khulna, Bangladesh | +880 1716-333670 | nazmusshakib335@gmail.com

Portfolio: mdnazmusshakib.me | GitHub: github.com/nazmusshakib878

PROFESSIONAL SUMMARY

Final-semester BSc CSE student and junior backend developer with hands-on experience building Laravel/PHP and MySQL applications, RESTful APIs, authentication, role-based access, booking workflows, and database-driven administration. Completed a Backend Developer internship and an 80-hour Laravel training program. Seeking Backend Developer, Laravel Developer, Full Stack Developer, or Software Engineer roles.

CORE TECHNICAL SKILLS

Backend & APIs: PHP, Laravel, Laravel 12, MVC, RESTful APIs, Laravel Sanctum, authentication, middleware, Blade, Google OAuth 2.0, CRUD, role-based access control

Databases: MySQL, Eloquent ORM, relational schema design, normalization, SQL queries, indexing fundamentals, database integrity

Frontend: JavaScript, React, Vite, Tailwind CSS, Bootstrap, Material UI, HTML5, CSS3

Tools & Practices: Git, GitHub, Postman, SMTP/email workflows, PDF generation, SDLC, Agile/Scrum, debugging, testing, technical documentation

PROFESSIONAL EXPERIENCE

Backend Developer Intern - Appstick Tech Firm | Khulna, Bangladesh | 01 Feb 2026 - 04 Mar 2026 | [Logistica Repository](#)

- Contributed to the Logistica project in a collaborative development environment, supporting Laravel/PHP backend implementation and database-related tasks.
- Worked with reusable backend logic, validation workflows, debugging, and database integrity checks.
- Used Git and GitHub for version control and team collaboration.

SELECTED PROJECTS

Securex - CCTV & Security Service Management System | Laravel | PHP | MySQL | Google OAuth 2.0 | [Repository](#)

- Built an end-to-end Laravel MVC platform for security-service discovery, client booking, administrative review, booking status management, automated email notifications, and PDF invoice delivery.
- Implemented email/password and Google OAuth authentication, role-based administration, CRUD workflows, time-slot conflict detection, alternative slot suggestions, and duplicate-booking prevention.

AI Smart Campus System | Laravel 12 | Sanctum | React | Vite | MySQL | [Repository](#)

- Led the academic team as Team Leader and Database Lead; designed the MySQL-backed data layer and supported React/Vite integration with a Laravel REST API.
- Secured API authentication with Laravel Sanctum and supported AI-assisted workflows using Gemini, OpenAI, or Hugging Face integration options.

Library Management Project | Laravel | PHP | MySQL | MVC | [Repository](#)

- Developed a Laravel MVC library system with routing, validation, relational data workflows, reusable CRUD operations, and database-backed record management.

EDUCATION

Bachelor of Science in Computer Science and Engineering (BSc CSE) | Expected Nov 2026 | CGPA 3.60 / 4.00

Northern University of Business and Technology Khulna (NUBTK), Khulna, Bangladesh

Relevant coursework: Database Management Systems, Distributed Databases, Software Architecture and Design, Advanced Data Structures, and Computer Networks.

TRAINING & CERTIFICATION

PHP (Laravel) Training - 80 Hours | Nov 2024 - May 2025 | Issued 29 May 2025 | [Verify Certificate](#)

Department of Computer Science and Engineering, Khulna University | EDGE Project, Bangladesh Computer Council, ICT Division

Credential ID: EDGE-DSTS-103-9880-00009 | Topics: Laravel MVC, routing, authentication, middleware, CRUD, relational schema design, MySQL/SQL, and backend application development.

LANGUAGES

Bangla: Native | English: Working proficiency
